Disperse Dyes
Flame Retardants
Organo Tin
Pesticides
Cadmium
Chrome VI

As Consumers become increasingly environmentally and safety aware, so the products we provide come under scrutiny. Many UK Retailers now have their own Restricted Substance Lists (RSL) and encourage their suppliers to ensure conformance to their safety and environmental standards.

HSTTS can offer Training, Testing, Advice and Support on how to manage Restricted Substances and implement a cost effective due diligence process to ensure compliance with Legislation and Retail requirements

To find out more about Restricted Substances and how to be pro active in your due diligence
